Inkjet labelling printer

Photorealistic quality, high printing speed

Inkjet labelling printer: coloured and black lettering for in

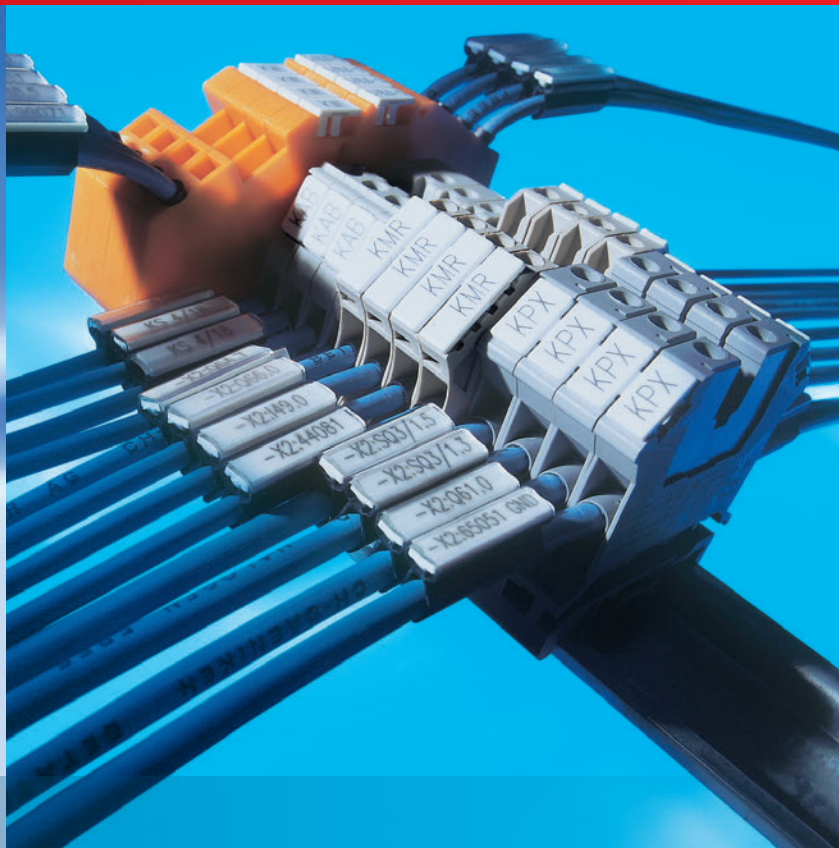

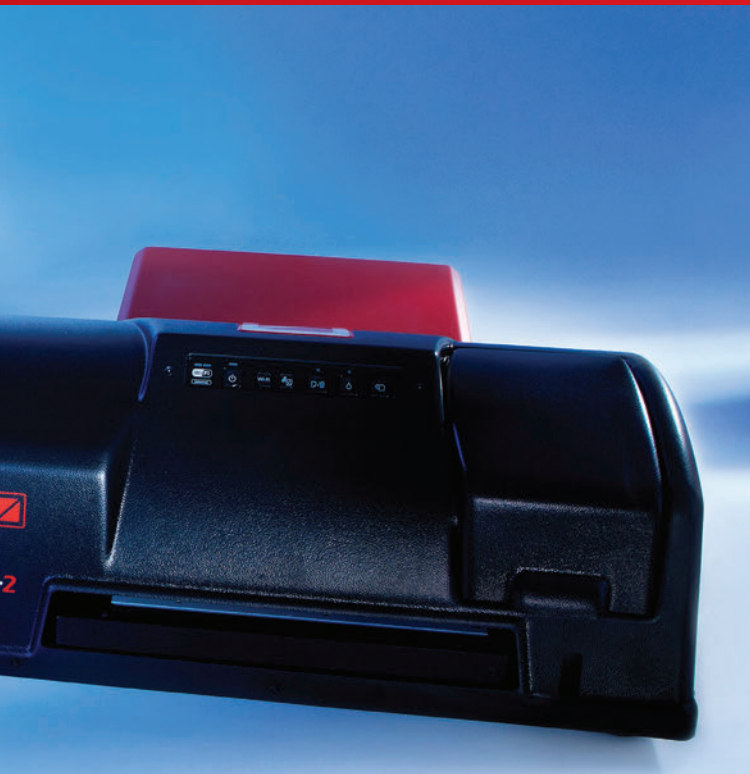

Inkjet labelling printer with expanded print area

With their expanded print area, their vast printing capacity of up to 600,000 characters per cartridge and their integrated Wi-Fi and Ethernet interfaces, the new *pictor²* and *pictor² black* inkjet label printers from Murrplastik set a new benchmark for colour inkjet printing systems.

Labelling specialist Murrplastik Systemtechnik (Oppenweiler, Germany) proudly presents the high-end inkjet printers *pictor²* and *pictor² black*. Razor-sharp, photorealistic quality at 720 dpi (*pictor²*). Pure black-on-white printing, available in high-quality or reduced ink consumption mode (*pictor² black*).

Industrial applications.

Technical data :

Power supply:	220–240 V AC
Print area:	approx. A3, aluminium base plates
Print speed:	90 s for 6 base plates (incl. job processing)
Interface:	USB / LAN / Wi-Fi
Colours:	
<i>pictor²</i>	7 colours / 7 cartridges + 1 gloss (empty) (cartridges are chip-coded. All cartridges must be installed, including empty ones)
<i>pictor² black</i>	2 black / 2 cartridges
Print volume:	est. 600,000 chars per cartridge (if font size set to 24 in ACS software)
Print resolution:	720 dpi
Nozzles per colour:	180
Min. droplet size:	1 pl (picolitre)
Ink:	Special solvent ink (eco solvent).
Dimensions:	approx. 64 x 25 x 73 cm
Weight:	approx. 20 kg

BENEFITS

- Durable lettering
- Simple installation
- Works with standard ACS software
- High print speed
- Depends on model and print options selected
Photorealistic quality or printing with reduced
ink consumption possible.

Durable lettering – perfect for tough day-to-day industrial use.

Specially developed for the *pictor²* and *pictor² black*, our ink produces lettering that is hard-wearing, quick-drying and long-lasting. Since different types of label can also be "mixed together" on a single base plate, this means that companies can now produce their entire daily requirements for label tags in just a few minutes. Attractively designed and weighing just 20 kg (approx.), the *pictor²* and *pictor² black* models make perfect workstation printers.
