## Information on CE-Mark

The CE-Mark is an authority mark for „Made in Europe“.

For the following products of Murrplastik Systemtechnik there is no technical harmonization regulation of the European Community:

Conduits and Fitting Systems  
Cable Drag Chain Systems  
Cable Gland Systems  
Marking Elements  
Cable Entry Systems

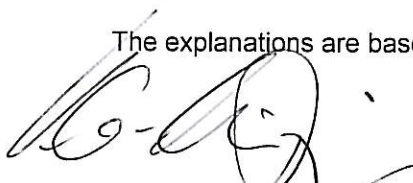

For the following product groups the CE-Mark is relevant:

EC-Regulation:

Toys	(88/378/EWG)
Simple Pressure Tanks	(87/404/EWG)
Machines	(89/392/EWG)
	(91/368/EWG)
Construction Work Products	(89/106/EWG)
Electrical Devices (Electromagnetic Compatibility)	(89/336/EWG)
Personal Safety Equipment	(89/686/EWG)
Active implantable Medical Devices	(90/385/EWG)
Equipment for Gas Consumption	(90/396/EWG)
Non-Automatic balances	(90/384/EWG)
Telecommunication Devices	(91/263/EWG)
Reference: EUROFORUM	

- For supplier parts at the moment it is not allowed by law to put on CE Marks.
- Responsible for the CE-Mark is the legal person that circulates the final product.
- Manufacturer Declarations as e.g. material certificates can be requested.
- The use of our products is not specified for certain groups; therefore no prefabricated part check can be affected.
- The use of our products in machines and devices is not negatively influencing CE-mark declaration for the final product.

The explanations are based on the actual situation as of October 2012.

i.V. Dr. Klaus-Dieter Bier
